

Environmental Policy

This policy applies to all metal finishing and non-destructive testing (NDT) services carried out at our Wimborne, Dorset facility. It covers all operations, employees, processes, and contracted activities under our control.

Policy Statement:

Metal Finishings Ltd is committed to conducting its activities in a manner that protects the environment, prevents pollution, and promotes sustainable practices. Top management recognises the environmental impacts associated with our specialist metal finishing services and commits to continuously improving our environmental performance through effective implementation of our Environmental Management System (EMS).

Our Commitments:

1. Environmental Protection and Pollution Prevention:

- Prevent pollution and minimise environmental impacts from our processes, including chemical treatments, energy use, water consumption, and waste generation.
- Promote sustainable resource use, energy efficiency, and responsible handling of chemicals and hazardous materials.
- Protect local ecosystems, biodiversity, and water and air quality in our operational area.

2. Compliance with Obligations:

- Meet or exceed all applicable legal, regulatory, and customer requirements relevant to our operations, including UK environmental legislation, RoHS compliance, aerospace and defence industry standards, and Nadcap accreditation requirements.
- Monitor and review compliance obligations regularly to ensure ongoing conformity.

3. Continual Improvement:

- Establish, monitor, and review measurable environmental objectives to enhance environmental performance.
- Foster a culture of continuous improvement through employee engagement, training, and innovation in environmental management.

4. Communication and Engagement:

- Ensure this policy is communicated to all employees, contractors, and stakeholders.
- Make this policy publicly available to interested parties and use it as a framework to guide environmental decision-making throughout our organisation.

Leadership Commitment:

Top management is responsible for implementing and maintaining this policy, ensuring it remains relevant to the purpose, context, and environmental impacts of Metal Finishings Ltd. This policy provides a framework for setting objectives, allocating resources, and driving continual improvement in environmental performance.

Review:

This policy is reviewed periodically to ensure it remains appropriate to our organisation's activities, the evolving environmental context, and stakeholder expectations.
